PROFESSIONAL SUMMARY

Wits Computer Science student with a 3.7/4.0 GPA and 2024 Vice-Chancellor Equality Scholarship. Builds full-stack applications using PHP, JavaScript, SQL, Java, Firebase, and Python across student networking, clinic operations, and adoption platforms. Academic Tutor with strong communication, debugging, and problem-solving skills.

EXPERIENCE

Academic Tutor, Computer Science Feb 2026 - Present University of the Witwatersrand

- Deliver one-on-one and group tutoring in programming, algorithms, data structures, and debugging.
- Translate complex technical concepts into practical, step-by-step explanations that improve student confidence and code quality.

SELECTED PROJECTS

CareQueue Live Demo Team Project

Stack: JavaScript, Firebase Authentication, Firestore, HTML/CSS, Jest, GitHub Actions, Vercel, Python, Flask

- Built features for appointment booking, virtual queues, clinic search, and live patient status updates in a community clinic management system.
- Integrated Firebase and Firestore real-time queue tracking and contributed to a Random Forest + Flask wait-time prediction workflow.
- Developed in a 6-person Agile team using test-driven development and CI/CD practices.

Bursary Connect Live Demo Personal Project

Stack: PHP, SQL, JavaScript, HTML/CSS, Tailwind CSS

- Built a student networking platform for bursary recipients with profiles, connection requests, event notifications, resource sharing, and document uploads.
- Designed the SQL data model and backend flows that support peer communication and student collaboration.

PawPal Personal Project

Stack: PHP, MySQL, JavaScript, HTML/CSS

- Developed an animal rescue and adoption platform with shelter discovery, pet listings, adoption requests, volunteer coordination, rehoming support, and emergency reporting.
- Refactored a fragmented multi-page build into a more unified application flow.

Open to Software Engineering Internships

EDUCATION

University of the Witwatersrand
BSc Computer Science
Expected Graduation: February 2027
GPA: 3.7 / 4.0

RECOGNITION

Vice-Chancellor Equality Scholarship
Awarded in 2024 for strong academic performance as a top-performing student from a rural school background.

TECHNICAL SKILLS

Languages
JavaScript, PHP, Java, Python, SQL, C++, C#, HTML, CSS

Frameworks & Tools
Firebase, Firestore, Tailwind CSS, Bootstrap, Git, GitHub Actions, Vercel, Flask

Focus Areas

- Full-Stack Web Dev
- Database Design
- Testing & Debugging
- Agile Teamwork
- CI/CD
- ML Integration

ADDITIONAL BUILD

Lend A Hand donation system built with Android Studio, Java, PHP, and SQL to connect donors and recipients through campaign and contribution workflows.
